

NOBEL ACROSS

50+ Nobel Prize Laureates have joined this project

CHINA

"Nobel Across China" was launched in 2003. It has gained extensive attention and support with the "Nobel Laureates Forum", "Nobel Cross Campus" and "Face-to-Face with Nobel Laureates". The project will invite 50-100 Nobel Prize Laureates to China to share perspectives and forge collaborations. The Nobel Prize is widely regarded as the most prestigious award of scientific innovations. "Nobel Across China" aims to bring innovative spirit and ideas to China to motivate our young generations to learn the frontier knowledge and to explore deeper in the scientific world. 50+ Nobel Prize Laureates have joined this project NOBEL ACROSS CHINA
